

## Business Solutions with AI Tools Workshop

Sponsored by **Overtime Global**

---

### Competition Overview and Components

In this two day competition, students will tackle a problem set unveiled at the start, leveraging AI tools to develop an innovative solution. Teams will utilize AI tools to generate a completed project during the competition. This challenge fosters collaboration, problem-solving, and real-world AI application in a dynamic, engaging environment.

Thursday night we help you pick your focus. A tutor for a tough class. A career tool. Something for your business.

From there, you build. Throughout the weekend you work directly with AI developers who have built solutions managing over 130 million data points and delivered \$58 million in client savings. They review what you are creating and push you further.

Saturday, the top teams pitch Shark Tank style in front of judges and the entire conference. Winners get recognized on stage, featured by MWC3, and stay on our radar as we build toward something bigger.

Some of you will leave with a working tool. Others will leave with a blueprint. Everyone leaves different than they came in.

Thursday night is the head start. Be there.

## **Workshop and Competition Statement**

## **Team Composition**

The competition can be an individual effort or the work of a team of two.

## **Skills**

Teams will utilize AI tools

Be capable of software to zip your files.

## **Scoring**

Your finished product will be judged by both the team who created the challenge as well as your peers during the presentation of your finished product during the Business Solutions using AI tools.

## **Schedule**

See Competition Schedule for Competition time and place of final presentations. Check in will begin 15 minutes before the Competition begins.

## **Resources**

Each student should bring their laptop with AI development tools.

The free trial for Claude is a great recommendation for the exercise. Claude offers a 7-day or 14-day free trial without paying. You have to provide payment info, but nothing is charged if you cancel prior to the end of the trial.
