

# Enterprise Resource Planning with ScrimmageSIM Workshop

**Sponsored by: ScrimmageSIM**

## Workshop Overview and Components

This workshop is designed for students at any skill levels who have an interest in learning about Enterprise Resource Planning while using ScrimmageSIM ERP software. This workshop is designed for students to succeed with few ERP/SAP skills although there are suggested resources available below, under 'Resources'. The software used for this contest is ScrimmageSIM.

After completion of this workshop, you can choose to participate in the ERP ScrimmageSIM competition.

## Team Composition

Individuals or teams of 2 students can register for this workshop.

## **Skills**

Previous ERP/SAP skills will be helpful, but are not required for this workshop. A motivated student with no prior experience can do well in this workshop although reading about ScrimmageSIM is strongly suggested.

The main skills for Students wishing to be successful is that they have an inquisitive nature and a drive to succeed.

## **Schedule**

See event schedule for workshop time and place. Time includes software overview and work and turn in. Check in will begin 15 minutes before the workshop begins.

## **Resources**

Each team must have at least 1 computer to complete your project. Learn about ScrimmageSIM at <https://scrimmagesim.com> . All other resources will be provided at the beginning of the workshop.
